you [Music] I'm Jacob Hornberger president of the future of Freedom Foundation and this is episode 28 of my series on the JFK assassination immediately after the assassination of President Kennedy a group of Cuban exile students in New Orleans called the d-r-e which were the initials for the Spanish name for this organization if you de press release advertising Lee Harvey Oswald's Communist bona fides you know publicizing his communist background his trip to the Soviet Union and suggesting that the assassination was a conspiracy that involved the Soviet Union communist Cuba and Lee Harvey Oswald this was the organization that Oswald had had an interesting encounter with in New Orleans some months prior to the assassination that after Oswald moved from Dallas to New Orleans he began publicizing himself as a communist and one of the things that he did was he went to the business where the head of the d-r-e was working man named Carlsberg ear and he introduced himself and he offered his services interestingly enough to this organization he said look I'm a marine former Marine I've got my marine manual if you need help with training your people I'm willing to help you out which is an extremely odd thing for a supposed communists to be doing to offer to work for a fiercely anti-communist organization well bring gear put him off and then apparently and then the next day Oswald was out on the streets of New Orleans back in his anti-communist mode

[00:02:01 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=121s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=121s)

Orleans back in his anti-communist mode or his pro-communist mode by handing out brochures advertising the fair play for Cuba committee now the fair play for Cuba committee was a national organization that were very very many prominent people in this organization what they their aim was essentially to establish peaceful and normal relations of cubing including lifting the the US embargo it wasn't like the US Communist Party which was naturally composed of people that were very committed to communism in the fair play for Cuba committee you had people of that philosophy and socialist but you also had people that just wanted to establish normalize relations with this country and believe that the embargo was wrong well so Oswald wrote the fair play for Cuba committee and said I want to establish a chapter here in New Orleans and he was the only member and then he also wrote the US Communist Party and wanted to do things to organize the Communist Party therein in New Orleans which had the interesting inference that by combining these two organizations it had a tendency to smear the fair play for Cuba committee is just another communist organization now the reason that's relevant here is because the CIA and the FBI were fiercely committed to the destruction of these two organizations remember this was the Cold War it was all or nothing the Communists were coming to get us the Russians were coming there was a worldwide communist conspiracy based in Moscow that was hell-bent on taking over the United States Cuba was a communist dagger pointed

at America's throat so he and you've got remember the prosecution of the Hollywood a Dalton Trumbo the McCarthy hearings and so forth and so the idea was that these two organizations along with the civil rights movement Martin Luther King were

[00:04:00 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=240s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=240s)

rights movement Martin Luther King were the spearhead for the worldwide communist conspiracy and so you know basically in a free society you got a right to advocate whatever you want not during the Cold War and not under the auspices of the national security establishment they were hell-bent on destroying these two organizations and so Oswald's combining in the two organizations had the interesting impact of trying to smear the the be fair play for Cuba committee with communist affiliation well he's passing out these brochures and one of the interesting aspects of this is that he stamps the return address on on some of the brochures that is the side entrance to an office of a retired FBI agent named guy banister now there were people also they said they saw as well going into banisters office banisters office is located in the heart of the US intelligence community in Orleans and there's indications that he's affiliated with this anti-castro anti-communist fervor that was going on during the Cold War keep in mind also also that Oswald is working at the Reilly Coffee Company which is owned by a fierce right-wing guy that's anti-communist Nanta Castro which is kind of strange that you know a guy of that persuasion philosophy would be hiring a supposed communist in other words everything is pointing to the fact again buttressing the idea that Oswald is not who they think that who they say they he was in the official version of the accounts here that he was actually a US intelligence agency agent whose cover was a communist who was / whose purpose was to infiltrate for example the Soviet Union gather information whatever he could or infiltrate the fair play for Cuba committee the US Communist Party and they had infiltrators in these

[00:06:00 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=360s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=360s)

and they had infiltrators in these organizations I was even some indication that they had a false defector program going in to the Soviet Union and so Oswald clearly fits this mold now he's passing out these brochures on the streets of New Orleans and and bring gear gets wind of this and so he goes over to where Oswald is the public streets and he and he creates this altercation that has all the earmarks of a fake altercation that he's saying oh why why are you doing this I thought you wanted to help me and Oswald says oh Carlos go ahead hit me hit me hit me it's like it was like Oswald was under an assignment to create a ruckus here and to create you know this communist bonafides for himself and so the police come and bring gear gets off they just release him but they arrest Oswald enter seemingly uh not both of them and so I was taken for disorderly conduct and while he's in jail the local jail he tells a jailer hey would you please call this FBI age and I want to talk to him and Taylor calls the FBI agent and lo and behold the FBI agent comes in pays Oswald a visit now we don't know what they talked about but it is rather strange that are supposed communists who's in jail for disorderly conduct is gonna be summoning an FBI agent who quickly responds it comes to talk to it well in any way aza was convicted of disorderly conduct so that's more publicity and then this motivates a radio host in New Orleans to invite bring gear and Oswald to come in there and and debate the issue this altercation well during this radio show bring gear brings up all of them Oswald's communist backgrounds his supposed a defection in the Soviet Union is Marxism and so forth so the the crescendo is rising about Oswald being a communist and this is part of what the d-r-e uses right after the assassination too you know publicize that Oswald's a

[00:08:01 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=481s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=481s)

too you know publicize that Oswald's a genuine communist and this is this is a communist conspiracy well soon after that Oswald goes to Mexico City and he does the same thing there he creates this huge ruckus at the Cuban embassy the Soviet embassy I want a visa I want to go to the Soviet Union I want to travel through Cuba and they're like really Larry and they said well no we can't do that here when you have to go through Washington blah blah blah and so you've got all this big ruckus going on in Mexico City now in the 1970s mid 1970s the House Select Committee reopens the investigation into President Kennedy's

assassination too many people have been asking questions they were they were leery of the official version that they just everything seemed a little too pad here communist kills president LOH nut with no motive doesn't brag about it denies it claims he's he's been set up I'll send the Mafia light figures silences him supposedly grieving over this whole thing people were just this made no sense and so the House Select Committee responding to this public pressure reopens the investigation and there were investigators on the House Select Committee that suspected that this had been a highly sophisticated highly complex regime-change operation so they start targeting the CIA for investigation and one of the targets one of the areas that what they wanted to investigate was Mexico City because as soon as oz was killed that the the whole Mexico City side of this thing is shut down I mean you almost get the impression that that US official said just leave it alone do not go down that road anymore just he was there he created this ruckus let it go well the House Select Committee investigators did not want to let it go

[00:10:00 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=600s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=600s)

investigators did not want to let it go because it was very mysterious to this day it's shrouded in mystery so that they the House Select Committee assigns to law students named Dan hardway and Edwin Lopez to to deal with the CIA and investigate this Mexico City operation well the CIA obviously thought that these two guys were just neophytes their law students they're not you know not doing not gonna know what they're doing and so forth and so they say oh yeah come on in we're gonna have a sealed room for you can't take anything out national security is at stake here but you can look at whatever records work what we're going to be an open book for you well after a while the CIA realizes that that Hardaway Lopez know exactly what they're doing they're not neophytes at all and they can tell by the request for record production that they are getting very close to something and the CIA freaks out of with this so they decide to bring in a liaison to facilitate things that was their cover story that you know to really make things better for these two guys we're gonna bring in an agent that's gonna work with them and help them out and so they bring an agent out of retirement to do this and he's supposed to work with him and so forth but as it turns out his job was to obstruct them to stop them delay them obfuscate and so forth to prevent them from getting these records relating to Mexico City now if we move up to the 1990s the assassination records review board you'll recall the JFK Records Act mandated the CIA and other federal agencies really saw the records but somebody slipped a provision in the law that okay you can release some up now but others you can wait 25 years to release them you know national security and so the the CIA in the military and other agencies took advantage on some of the records including the Mexico City records that those were not going to be released for 25 years because national

[00:12:00 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=720s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=720s)

released for 25 years because national security is at stake well so that must've felt like an eternity back in the nineties you know 25 years now what are we worrying about you hear a lot of people could be dead that are living today well lo and behold the 25 years comes around last October October 2018 and that they freaked out I mean because Trump's is saying I'm gonna release these I mean the law required that they be released and even the day before the deadline Trump says I'm releasing it's gonna be real interesting since out of tweet well between that day and the following day the CIA got to it Trump we don't know how but all we know is the Trump the next day after he already said I'm gonna release him said well I've changed my mind national security is at stake we're gonna have to keep these records secret for another three years and that includes the Mexico City Records along with tens of thousands of other records because the CIA says these records will jeopardize national security in other words if people see them you know more than half a century after the assassination the United States will fall into the oceans or maybe even be taken over by the Communists as part of the old cold work worldwide conspiracy based in Moscow to take over the United States so that's where thanks Stan there now after the assassination records Review Board went went out of existence a former Washington Post reporter named Jefferson Morley who's authored some great books which I highly recommend he's got a new book on that is a biography of James Jesus Angleton who was

head of counterintelligence for the CIA that's called the ghost he's got an article on a CIA agent who was in charge of the Mexico City operations his name was Wynn Scott he's authored a book for us called CIA and JFK the secret assassination files well Morley discovers the existence of a

[00:14:02 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=842s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=842s)

well Morley discovers the existence of a CIA agent named George Jo and anus well it turns out that the d-r-e the organization that all saw that had this interesting encounter with and it had promoted as well as communists bona fides immediately after the assassination in fact they were the first conspiracy theorists that they they were theorizing that Oswald was in a conspiracy with the Soviet Union and Cuba to assassinate President Kennedy turns out is as Morley discovers that the d-r-e was being funded by the CIA in the months leading up to the assassination and including the the period of the assassination itself to the tune of a large amount of money think it was fifty thousand dollars a month which was a lot of money back then and guess who's a supervising agent was it was George Joe and eNOS now all of this was kept secret from the Warren Commission now if we move up to the House Select Committee take a wild guess who that CIA agent was that they called out in existence to serve as the so-called liaison but really the obstruct ur to them getting a hold of the records on Mexico City that would be George Oh natives none of that was disclosed to the House Select Committee and and and the House Select Committee was not advised of Joannie toises and the CIA's role in the d-r-e back in November of 63 in other words Joe and eNOS and the CIA were monitoring supervising and managing this organization funding this organization at the time that they issued that press release advertising Lee Harvey Oswald's communist bonafides which is I indicated before dissuaded a lot of leftist groups from questioning the assassination for fear that they would be smeared as a communist for coming to the assistance of Lee Harvey

[00:16:01 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=961s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=961s)

coming to the assistance of Lee Harvey Oswald then in they also kept it totally secret from the assassination records Review Board none of the John eNOS records were released or it's certainly not disclosed to the ARB and this motivated the chairman of the ARB who was became a federal judge John Dunham he was outraged over this when he learned about it he says if we had known about this we would have we would have certainly done our best to secure all the facts and circumstances surrounding what went on here in 63 would joining us to see our CIA in the d-r-e and then Robert Blake II who was general counsel for the assassination of the House Select Committee on assassinations in the 70s he said clearly we were misled here and he was outraged as well so you got the CIA keeping all of this thing's secret even though they're involved in this promotion as Oswald as as he is he you know supposed Communist News it's taken out the president now there's another interesting aspect to this after the assassination records Review Board went out of existence a man named John Newman whose books I highly recommend you can just you know Google John Newman JFK he's either in some great stuff he's a scholar researcher and he's ex-military he's mastered the arcane language in CIA memos as you know they're their acronyms and codes and so forth well he he Neuman have specialized and figuring out what all these things mean and he starts studying some of the records that had been released and he discover something phenomenal turns out that the CIA was monitoring Oswald practically the whole time watched him very carefully and especially in the months leading up to the assassination during his time in New

[00:18:01 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1081s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1081s)

the assassination during his time in New Orleans during the the big Mexico City incident that the CIA's monitor and him watching him secretly they don't tell anybody this they don't tell the Warren Commission they were doing they don't tell the House Select Committee they don't tell the ARB and and it was just a tight group of people that we're doing is headed by James Jesus Angleton the head of counterintelligence now why were they doing this well you know one argument would be oh well he's a communist I mean this is what they were doing they were watching communists you know Dalton Trumbo and so forth but you see that makes no sense because they were doing more than just watching communists they were harassing them

they were prosecuting him this is a guy that had supposedly defected to the Soviet Union had given up secrets about the u-2 spy plane which engine which got shot down shortly after that over Russia and yet all they're doing is a monitoring them all they're doing is supervising they're not giving him the Edward Snowden treatment they're not giving him the John Walker Lindh treatment the Julian Assange treatment they're just watching him and then watched him when he comes back to Dallas they don't report anything I mean it you know here's this committed communist supposedly and here's here's the city where the president is coming to visit and the CIA seals it slips doesn't make any sense especially when it turns out that the presidential parade route is going to right near the building of the guy they're supervising and monitoring they're not going to say one word now one can say oh they're just derelict that stretches things nobody can be that derelict when you're monitoring a guy because he's a communist and you don't even report this to the local FBI that hey you need to watch this guy you're the president's come into town it's a stretch the more likely explanation is that you see by the time New Orleans came around they the the regime change operation had gone

[00:20:00 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1200s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1200s)

operation had gone to play the the war between Kennedy and the national security establishment was just it was it was on and there was no way to reconcile because Kennedy had thrown the gauntlet down this this cold war is a racket he's he essentially said we're gonna end it we're gonna stop it which by the way would have ended the justification for America being a national security state I mean back then in 63 people still remembered what it was like to live under a limited government republic so it's very likely they would say well hey we shifted to a national security state which is a totalitarian type of structure because of the Cold War and now that the Cold War is over what do we need them for we need the CIA and the NSA and massive military industrial complex so Kennedy was threatening not only a new direction for America he was threatening the existence of the national security establishment itself and then secretly negotiating with Castro and Khrushchev you know the war was on and so here you know they're there they're monitoring the sky they're there watching him you would think that hey we need to do something here but they don't do anything and so why would they be monitoring well if they're setting him up they they have to be watching him to make sure he's not on to them because Oswald clearly could have gotten suspicious okay why are they sending in New Orleans here why am i doing all this pro-communist I've already been to the Soviet Union I've already come back why are we repeating this game here and then being sent in to Mexico City to create this brouhaha it's very possible and even say what's this all about I mean going back to the Soviet Union what am I gonna do there what are they sending me back for and then he ends up in a building where he sees the presidential parade route coming by that building it's very possible he could have gotten suspicious

[00:22:01 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1321s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1321s)

possible he could have gotten suspicious and so you yeah when you're framing somebody you've got to watch them you've got to make sure that they they're not onto you because if he figures it out that something's up they might have to abort the mission so you got to keep close watch if whoever they're gonna frame and that to me is the most likely explanation especially given that they kept it all secret until Neumann discovered it now third thing to consider in in all this was the Chilean coup in 1973 which is ten years after the Kennedy assassination here you have a democratically elected president just like here in the United States who is a socialist and who is doing exactly what Kennedy did he's reaching out to the Soviets and to knit to the Cubans and a spirit of peace and friendship being vice Fidel Castro to visit is communist and his regime and the u.s. NSA curity establishment along with President Nixon hardcore right-wing anti anti-communist conservative they go ballistic they say oh well a yen day is a threat to our national security even though he's thousands of miles away but the fact that he had been elected that people had elected a socialist I mean this showed you that more the Communists were coming the worldwide communist conspiracy was succeeding so they decided they needed to get rid of a yen day they'd asked him from power democratically elected president just like Kennedy was and the mindset was though that that we've got a problem here do we just go and get him ourselves or do we try to get the national security establishment here our counterparts in Chile because Chile under a yen day was a national security state to a giant military

intelligence establishment very powerful so they they first tried to bribe the CIA tried to bribe the members of the Chilean legislature to not confirm a nd as president it had been thrown into the legislature because he had received only

[00:24:01 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1441s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1441s)

legislature because he had received only a plurality and under the law the legislature then decided and the CIA tried to bribe him into voting against him but that didn't work and so they they go to the to the Chilean military and they say we need you guys to do this and the head of the Chilean military overall commanding general a man named Rene Schneider said no I I'm a soldier I've taken an oath as supporting to the Constitution and the Constitution provides for only two ways to remove a president impeachment and elections not a coup not going to happen well the CIA and the military - security established in the United States was outraged over this in there they're trying to convince Snyder that look the national security establishment of any country has the authority the implicit implied authority to remove a threat to national security and they decide who's nationally what national security is and what that threat is and in this case the president of the country all be a Democrat elected turned out to be a threat to national security of Chile and so that they were arguing that the local the the Chilean national security establishment had a responsibility to ignore the Constitution and remove the president from office and save the country well it's neither steadfast so the CIA said well we need to remove him from from power then he's an obstacle to this and so they orchestrated a kidnapping scheme where they smuggle high-powered weapons they hire local thugs to do the kidnapping and so that the kidnapping attempt takes place on the streets of Santiago not surprisingly the Schneider's armed he's in general he he fights back he starts shooting during this this this kidnapping attempt and they shoot him dead it's just a classic ambush and the CIA just acts oh my know

[00:26:00 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1560s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1560s)

ambush and the CIA just acts oh my know we're shocked shocked shocked we had no idea that he would get killed we just wanted to get him kidnapped which was ridiculous I mean killing had to be part of the plan from the very beginning because once you remove the commanding general from his poster and kidnapping you can't exactly send it back me because if you send it back he becomes the obstacle again so assassination had to be built into this plan along with Oh were shocked and that that some underling you know inadvertently or decided to take him out without authority and in any minutes still a felony murder under the principles of felony murder the CIA was responsible this but for this but nobody ever brought the brought to justice nobody was ever prosecuted because this is a national security state operation the federal court to Supreme Court have effectively held that they will not get involved and in censor or control or regulate or manage anything the national security establishment does in the name of national security when the the family members of Rene Schneider sued and US federal court for the wrongful death of their the murder of their of their father and their husband the federal courts you amount in their ear so that mean that's the way things operate when you're a national security state the nasa curity state is everything it Trump's the Constitution the Supreme Court the legislature the president and everything so that they get rid of Schneider and then so then they convince the the rest of the military you have this duty to remove your president and they go along with that and that's where Pino jet comes into into play and they they they had a war against against a yen Devi you see you got two branches of government going to war against each other now it's not much different from the war that was taking place between the u.s. national security establishment and Kennedy it had not turned violent yet until November 22nd but the war was there I mean Kennedy had thrown the gauntlet down in his peace speech and said I'm I'm moving America away this

[00:28:02 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1682s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1682s)

said I'm I'm moving America away this this is a racket called the Cold War we can get along you even proposed a joint moon shot with the the Soviets which would have meant sharing missile technology with them rocket technology nuclear test ban treaty secret negotiations so here you've got in Chile the situation where you know a Yenta is doing the same thing and this war takes place where the the gnash security

establishment is doing its best to assassinate the guy not with bullets but with missiles they've got airplanes jet airplanes from the Air Force firing missiles in on the National Palace trying to kill a yen date and then they've gotten surrounded by infantry and tanks and in the end is fighting back but there's there's no possibility that the executive branch can stand up against the national security branch and so a yen date supposedly commits suicide which it would not be too surprising because they rounded up some 50,000 people who had been supporters of a yen day and or socialist leaning and they tortured the heck out of many of them raped many of the women did terribly gruesome sexual stuff on the women and then they killed three thousand of the people just murdered them disappeared them so it was a it was a brutal war there and then of course we have the the dictatorial regime of penis yet that takes power and all under the idea that we have saved the country okay it may not be in the Constitution but the national security state Trump's the Constitution because this Constitution they argued was not a suicide pact so if you're gonna if your country is gonna go down by following the Constitution you don't need to follow the Constitution that was the mindset well they wanted to keep US involvement in this thing secret and okay that can be just general penchant for secrecy by the military in the CIA

[00:30:01 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1801s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1801s)

for secrecy by the military in the CIA but it also could be because it has these very very fascinating parallels with the Kennedy assassination you know the the duty of the national security establishment to save a country and there was a two American men who paid the price for this this penchant for secrecy one was Charles Harman and the other was Frank to roogie there were guys in the early 30s harmon was a journalist down there a true he was pro-social they were both Pro socialists they worked with a and a regime and well Harman had this weird coincidence of being it that in the town where the coup started and the very day it started it was a town called Vina del Mar and he's and he's there as a tourist and he sees all these intelligence types from the United States they're in the town and there's what merican warships off the waters there and and then all the the US officials that are there have passes to get through all the coup checkpoints and so Harman puts two and two together that the u.s. is part of this and that was the last thing that the CIA and the military wanted to happen they they were hell-bent on keeping everything secret as far as u.s. involvement was concerned and again that may be just general penchant for secrecy but it also could be because of these amazing parallels with the Kennedy assassination so in the event they just had Harmon and triggy murdered they either directed the the Chilean officials to do it or they authorized them to do it or requested them to do it clearly Chile would never in Pinochet would have never killed Americans their partners I mean the US government's partnering with them they're not gonna kill Americans and worse they're gonna deport him and sure enough the it was later discovered that there was a State Department secret memo that was held top secret for many years where they had conducted their own investigation into the Herman and Trudy murders and

[00:32:01 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1921s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=1921s)

the Herman and Trudy murders and determined that US intelligence had played a role in this and the most likely role is hey would you deal with these two guys we need to get rid of them and the course that Chilean officials are going to do whatever the Americans ask of them but nothing came of that State Department memo the State Department said you know we will recommend further investigation which was a joke because they had to know that nobody's gonna follow that recommendation this is the national security establishment nobody's gonna investigate them this is a national security state regime-change assassination of two Americans which shows that they're not above killing Americans you see something that they might want to keep secret with respect to what was going on ten years before now so so you you've got this penchant for secrecy on on this thing later Richard Helms this CIA director is asked in Congress whether the u.s. played any role in this and he denied it under oath it was a lie it was flat-out perjury and it later turned out that they found that it was perjury and they indicted him for perjury but they ended up giving him a sweetheart deal because again national security establishment and they let him plead to a misdemeanor and and they find him but he comes back to CIA headquarters and he's got this huge reception of CIA operatives that give him applause and Cheer him on and they they pass the hat to raise the funds for the fine they

thought he was a row ik for having you know kept these secrets by lying to Congress I mean shows you the mindset that was going into this thing and and again you might say well it's just the CIA's penchant for secrecy except for the fact that of these fascinating parallels with the Kennedy assassination and the the Chilean coup some years later now you might look at these three things and say well you know just independently it's

[00:34:00 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=2040s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=2040s)

well you know just independently it's just not that critical it could be that they just have a penchant for secrecy but if we put it in an overall context especially in the context of the fraudulent autopsy it things look different you see you've got this fraudulent autopsy which I think clearly by now you should see that the overwhelming circumstantial evidence that virtually is conclusive that there was a fraudulent autopsy here there is no innocent explanation for a fraudulent autopsy it is impossible to come up with an innocent explanation all the explanations are nefarious and the other thing is that the only way they could have put together the fraudulent autopsy scheme is before the assassination because it is inconceivable they could come up with that kind of sophisticated plan in the 30 minutes between the time Kennedy was shot and the time he was declared dead remember the plan is launched at the moment he's declared dead when presumably Johnson issues the order get this body out of Parkland to that team of Secret Service agents at all costs and that's when you know they show their guns and there's that violent altercation at Parkland to get the body out take it to Barr plane where Johnson's waiting for it where he takes it to Maryland and delivers it in the hands of the military which conducts his fraudulent autopsy well if the plan was conceived prior to the assassination that they took but one conclusion and that is the plan was part of the assassination there's no way that they would plan a frozen autopsy without having been part of the assassination itself so that's how we see circumstantial evidence and logic and reasoning working together with this and when you combine it with what was going on with Addie Ari advertising Lee Harvey Oswald's communist bona fides and and George Johnny this his role and keeping all that secret and then monitoring Oswald not saying anything about it and then the Chilean coup you put all this together everything looks very

[00:36:01 \(https://www.youtube.com/watch?v=SlqOOK9jBO0&t=2161s\)](https://www.youtube.com/watch?v=SlqOOK9jBO0&t=2161s)

together everything looks very incriminating for the u.s. national security establishment you [Music]
